

To whom it may concern

As a manufacturer of carpets, we confirm that our products comply with the most recent requirements of the REACH Regulation (EC 1907/2006). This regulation focuses on the Registration, Evaluation, Authorisation, and Restriction of Chemicals (REACH) and aims to safeguard human health and the environment from potential risks associated with chemical substances.

We ensure that our operations and products adhere to the latest legislation, including but not limited to:

- **Restriction List (Annex XVII of REACH):** We ensure that our products comply with the restrictions outlined in Annex XVII of the REACH Regulation, which specifies the conditions and limitations for the use of certain hazardous substances, mixtures, and articles. This list includes substances that are either banned or restricted in specific applications to ensure the safety of human health and the environment.
- **Authorisation List (Annex XIV of REACH):** We guarantee that none of the substances we use are subject to the Authorisation List (Annex XIV). This list includes substances that cannot be used without prior authorisation, as they pose significant risks to health or the environment. If a substance is included on the Authorisation List, it may only be used if specific authorisation has been granted by the relevant authorities.
- **SVHC List (Substances of Very High Concern):** In accordance with Article 33 of the REACH Regulation, we confirm that our products do not contain substances from the SVHC list in concentrations above 0.1% by weight. This list is regularly updated by the European Chemicals Agency (ECHA), and we ensure continuous monitoring and compliance.
